Key to Map:

Burial in solid black line - is marked by a gravestone

Burial in dotted blue line - has no gravestone

Sequential number in red - introduced for the purpose of this map in 2008 and has no historical significance. It is NOT in date order.

Name in Orange - person not recorded in burial register, may represent a memorial without burial e.g. 74 & 76
The burial register may not be complete in the years 1952-1957 which may account for 79 and 82

Sources of Information:

The burial book and the gravestones themselves.

Anomalies:

79 - Ernest Johnson is recorded as aged 75 on gravestone, but aged 86 in the burial book
There are other age discrepancies at 91, 92, 93

91 - Sarah Jane Manning is recorded on the gravestone as buried 1962, but recorded as 1952 in burial register. The gravestone is correct.
The burial entry appears to have been inserted into a blank space in the wrong year.

74 - John Davies was not buried here in 1876, pre-dating the burial ground. This is a memorial.
